Workday is a tradition at NSCDS. In keeping with the motto "Live and Serve," students and faculty rake leaves for community members and on campus each fall.

Strengthening Roots, Spreading Branches

One could say that 1992-93 was the year of the three R's at NSCDS: rediscover our history, re-establish our mission and redirect our future. As the new Head of School, I found myself surrounded by good will. All members of the School family seemed to welcome the opportunity to strengthen the roots of North Shore and to spread our branches towards the future.

With a mission to educate students for the 21st Century, while maintaining the values and culture of our founding headmaster, Perry Dunlap Smith, we continue to offer students academic challenge in a supportive environment. We are also in a position to accentuate our uniqueness as a small, K-12, progressive school and to search for new ways to be educational leaders. In some cases we may strengthen existing programs, as Master-in-Residence Barbara Wilmot is helping us to do in math; in other cases we may inaugurate new programs, as Gloria Baez and Barbara Castilla are doing with Spanish throughout the Lower and Middle Schools.

Tangible proof of strong support for North Shore is the record-breaking $480,000 raised for the annual fund last year. What a difference it makes in maintaining current programs while developing visions for the future! To all of you who made a gift in 1992-93, I send my heartfelt thanks.

Sincerely,

Julie Hall

Commencement 1993

At the close of this year's ceremony, the Class of 1993 — 33 new members of the Alumni Association — sang Wake the Echoes, and the four "Lifers" rang the School bell outside of the auditorium.

(From left) Katie Davis '94 and Carrie Price '93 after the graduation ceremony.

On June 11, 1993, just as it has for 73 years, The North Shore Country Day School launched a graduating class of young men and women into the world. Although the names are different each year, the traditions and emotions remain the same. Each person takes his/her own memories of team sports, musicals, plays, parties, community service, seemingly tortuous tests and papers—even Morning Ex.

In his address to the NSCDS community ***Benjamin "Benjie" de la Fuente*** *affectionately compared the growth of members of the class to a garden. Excerpts from the speech follow:*

Four years ago, this class sowed its seeds in the Upper School soil. Just as in any other garden, along the way, some seeds did not make it—and did not have the opportunity to grow along side the rest of us. Then again, as some seeds carried away with the wind, their places were taken by new seeds. Each one of us before your eyes this afternoon is a survivor in our garden. Among us, we have cultivated flowers of different colors and shapes and have sprouted to many different heights.

We often were motivated by ourselves, and credit is due to our friends and our parents. However, the Class of 1993 owes much of its success to the true caretakers of our garden— the faculty of North Shore. Indeed, our teachers helped us through the anxiety and frustration of freshman year, made sure that we kept our heads on straight during

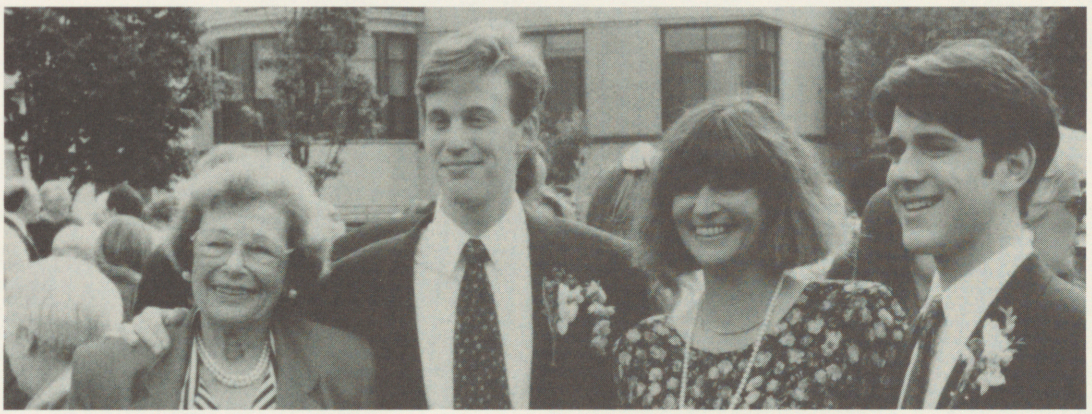

an exciting sophomore year, gave us hope and the will to keep going during an arduous and task-filled junior year and made sure that we didn't get complacent or lazy as our senior year drew to a close...Yes, they were, first and foremost, our educators. But beyond that, in many cases, they were also our friends and will continue to be.

For their patience and perseverance and for their knowledge and understanding, we, the Class of 1993, owe a great debt of gratitude to our esteemed faculty, without whom this day would not be possible.

As our class departs, it's time for each of us to dig his/her plant from the North Shore soil to plant it in another field. But as any amateur gardener will tell you, you can't just take the plant out of the ground; you must also take the soil that surrounds it...Wherever we go, whatever we do, our foundations will truly remain on these grounds with the purple and the white."

New Staff Members Energize School

The North Shore Country Day School has long been proud of attracting energized, accomplished faculty members. This year, new faces include teachers fluent in French, Spanish, Italian and Japanese, who highlight our attention to a multicultural environment.

Paul Perkinson comes to NSCDS with an impressive and varied background. For the past nine years he served as junior class dean of students, history department head and varsity baseball coach at Friends Central School in Philadelphia. Prior to that assignment, he taught at Kildonan School in Amenia, New York, and served for two years as a teacher and educational consultant to the board of education of Kawai Village, Japan.

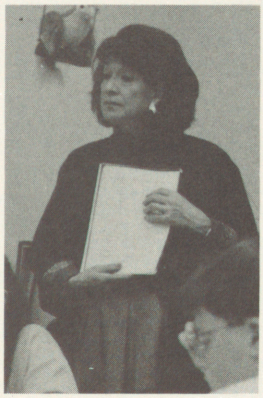

These varied experiences will serve NSCDS well as we prepare students for the 21st Century. Paul said of his job, "Schools should be about giving students a strong sense of purpose, the tools of responsible power and an abiding faith in the future."

In his parting words to the class of 1993 at Friends Central this spring, he said, " We are at our best when we see our learning institution always becoming, always building. We are at our best when it is safe to ask, "Is our way of doing things faithful to our lofty mission statement?"

Schools should be about giving students a strong sense of purpose, the tools of responsible power and an abiding faith in the future.

Paul Perkinson is a native of Atlanta, Georgia, who received his B.A. in history from Earlham College and an M.S. in education from the University of Pennsylvania. He resides at Wavering House on the North Shore campus with his wife Kip and their children Gabriel (5), Jacob (4) and Emma (18 months.)

Gloria Baez, who teaches Spanish in the Lower School, attended the Catholic University in Quito, Ecuador, and received her B.A. from Roosevelt University in Chicago. Her professional background includes teaching English to Spanish-speaking children as well as Spanish to English-speaking students in Ecuador, Sears School in Kenilworth and Central School in Wilmette.

Ginger Brent

Ginger Brent joins the Upper School English Department as the ninth and eleventh grade English teacher. She has a B.A. from Fordham University and an M.A. and Ph.D. from Duke University. During her tenure at Duke, Ginger was an instructor in the CHANCE program, a consultant at the Writing Clinic and a freshman composition instructor.

Barbara Castilla, who teaches Middle and Upper School Spanish, comes to North Shore after a stint as a lecturer at Oakton Community College. She received both her B.A. and M.A. in Applied Linguistics from the University of Illinois, Champaign, where she was a recipient of the ***Daily Illini*** Award for Excellence in Teaching eight times during her four-year tenure as a teaching assistant.

Also new to the English Department is **Tim Cronister**, who teaches tenth grade English, assists with the soccer team and serves as a 21st Century Fund substitute. His B.A. is from Haverford College, and he earned his M.A. from New York University. He recently returned from two years at the American International School in Vienna.

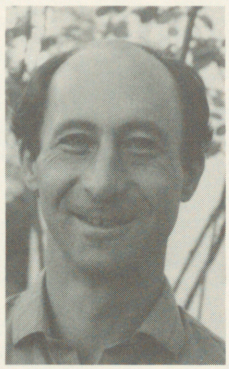

Tim Cronister and Barbara Castilla

Jennifer Gillis arrives at North Shore as a gift of sorts from former Lower School head Tom Doar, with whom she had worked since 1989 at the Rye (N.Y.) Country Day School. She teaches third grade at North Shore. A published author of two children's books, Jennifer received her B.A. from Williams College and studied Renaissance art and architecture in Florence.

Jennifer Gillis

David Mathes teaches Middle School French. After graduating from Bates College, he spent five years in the French Foreign Legion as a medic. His M.A. is from Middlebury, and he has taught French at the Williston Northhampton School in Massachusetts, ESL for three years in Paris and French and Western Civilization at the International School of Cyprus.

David Mathes

In addition the School has five new interns: **John Beasley** (fourth grade), **Emily Berry** (second grade), **Michael Feagler** (fifth grade), **Peter Lasko** (first grade) and **Kerah Sandler** (third grade).

Also new to the School are **Vinnie Vrotny**, computer consultant and instructor; **Melissa Feagler**, receptionist and assistant to the college counselor; **Susan Theiss**, 21st Century Fund coordinator; and **Kate O'Malley Patke**, alumni coordinator, for whom the term "new" is a bit of a misnomer. Kate was a "lifer" and 1985 graduate of North Shore.

School Community Distinguishes Itself

Recognition

Head of School **Julie Hall** spoke at the Fortnightly of Chicago on September 23, 1993. She shared poignant and revealing stories about the true lives of people who lived in agricultural Mississippi during the Civil War and its aftermath. These stories were collected by Mrs. Hall's mother-in-law, Frances Hall.

Appointment

Stephen Packard, Director of the Diller Street Theatre, has been appointed to the Board of Directors of the Children's Theatre of Chicago. Stephen was also involved in "Theatre Year Chicago Design Retrospective: An Exhibition of Member's Work" at the Chicago Cultural Center which ran from September 7-26, 1993.

Publication

Amanda Bailey '92 published her first poem in the Chicago weekly alternative newspaper ***Strong Coffee***. Amanda is a freshman at NYU majoring in fiction writing. **Susan Pope '96** recently published an article in the ***Winnetka Paper*** on Hines Fellow William Pinkney's talk at North Shore last winter. A recent issue of ***Read*** magazine featured poems by **Lilly Zsolnay '98**, **Matt Campbell '98** and **Mohammed Nasiruddin '98**. The magazine also named **Brad Price '98** as a finalist in its annual poetry contest. **Eliza Durbin '97** was also included in a recent issue. Works by **George Tocas '96**, **Dana Brown '96**, **Matt Campbell '98** and **Brad Price '98** were included in the ***American Academy of Poetry*** anthology.

Welcome Back, Liz!

At the end of the 1992-93 school year, **Liz Price Hunt '42** retired after many years at NSCDS. She worked in many different areas of the school from 1969-1993 including Perry Dunlap Smith's secretary, financial aid director, assistant to the heads of all three divisions and her most recent work as registrar and assistant to the college counselor.

Those of us lucky enough to know Liz were quite sure that though her retirement had begun, her connection to NSCDS would remain constant. Little did we know that within a month, Liz would tire of domesticity and return.

The School is thrilled to have Liz back with us on a part-time basis in her new role as adminstrative assistant to the head of the Upper School.

Gilbert and Sullivan Alumni Sing-Along Draws Over 100

After a triumphant performance of ***H.M.S. Pinafore***, on March 19, 1993, the Alumni Association hosted its second Gilbert and Sullivan sing-along. Over 100 alums raised their voices in song, led by the expert hand of maestro extraordinaire Vin Allison.

Vin—with a smile and the trademark wave of his hand— proclaimed, " You were all in very good voice."

An impressive variety of classes was represented at the post-performance reception, spanning from the Class of 1930 to our most recent graduates of the Class of 1992. As alums, students, faculty and friends concluded an enjoyable and memorable evening of song, Vin—with a smile and the trademark wave of his hand— proclaimed, "You were all in very good voice."

Vin strikes a familiar pose.

Stanton Family Exhibits Artwork

An exhibition of the Stanton family's artwork celebrated a tradition of artistic talent. The Stantons have been a part of the NSCDS family for nearly 70 years beginning with patriarch Francis R., Class of 1927, through Francis S., Class of 1973.

Works by all six members of the Stanton family were on display in the Almquist gallery from April 16 through June 11, 1993. The media used in the Stanton exhibit were as diverse as the people who created the art work.

Louise displayed abstract paintings and drawings created from her observations of nature. Francis R.'s modernist architectural sketches were among the highlights of the exhibition. The Stanton children offered works that prove that talent runs deep in this family. Suzy's work included a unique and inspiring display of woodcuts and etchings. Her brother Bim's investigation into his family history culminated with the Genealogical Wheel, an artistic project without end. Campbell added another medium to the exhibit with beautiful stained glass pieces, including a fabulous Kaleidoscope. Francis S.displayed striking maps of the state of Washington and the California Terrain that rounded out a truly delightful exhibition.

Michael Bonesteel, art critic for the Pioneer Press, said of the exhibit,"...the viewer notices more than an art exhibit. It's a little like peering into a family album."

Development Directions

21st Century Fund Effects Change

Guided by an oversight group and 21st Century Coordinator Susan Theiss, 21st Century Fund faculty committees have spent several months looking at cutting edge technologies, themes and methodologies. Their work helps provide the direction for using the Fund, which— as defined by Trustees— intends to make NSCDS truly distinctive in the areas of foreign language, mathematics, science, multi-cultural awareness and computers.

There are many opinions and theories about what a good school should do to prepare its students for the 21st Century. However, research culled by Susan Theiss indicates that educators reach consensus on a few specific principles which include:

- child-centered teaching with less lecturing and an appreciation for different learning styles
- experiential, hands-on learning
- integrated, interdisciplinary curriculum, based on themes and full of real-life applications and group work

NSCDS is proud that many of these ideas have been in place at North Shore since its founding in 1919, and that Perry Dunlap Smith's vision of progressive education is alive and well in today's NSCDS classrooms. Together with an understanding of these concepts and with the support of the Fund, NSCDS has initiated a foreign language program for students from K - 12 and a summer immersion program, brought in a mathematician as a master in residence and provided additional funding for the new seventh grade PDS 2000 Program.

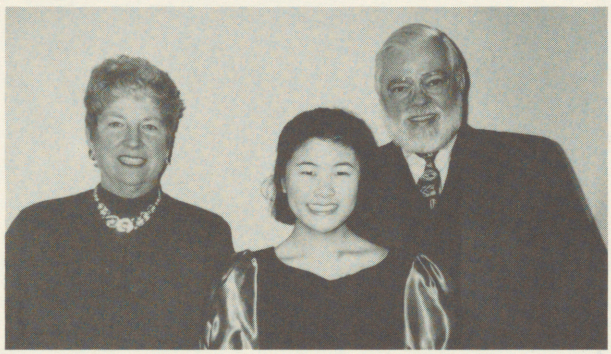

In addition, the technology committee, led by Computer Science Department head Jan Migaki, has organized a series of computer classes for faculty, recruited student "trouble-shooters, and set up a software preview center where teachers can go to review new educational software in advance of purchase. Also, at the suggestion of committee members, computers have been taken out of the lab and placed in the classroom.

The 21st Century Fund was created in the spring of '93, when members of the Board of Trustees earmarked $1 million to create a framework for distinction at NSCDS. In doing so, Trustees seek to implement the School's mission statement, which pledges to prepare students for the challenges of the next century while preserving the School's traditions and the values and culture established by founder Perry Dunlap Smith.

Marshall Concert Features Rising Star

The 10th Annual Susan Marshall Concert in March featured violinst Jennifer Koh. Ms. Koh also spent part of the day at the School. "My favorite part of coming was talking to the children. We don't have music in our school," said Jennifer, who visited a number of Lower and Middle School classrooms after her concert in the auditorium.

A senior at Benet Academy in Lisle, Ms. Koh began her violin studies at age three, and currently studies with Almita and Roland Vamos of the Oberlin Conservatory. Ms. Koh, who has played as a soloist with the Detroit and Chicago Symphonies, has won a number of honors which include the Gold Medal Laureate of the International Tchaikovsky Competition and the Silver Medal at the Nielsen International Violin Competition.

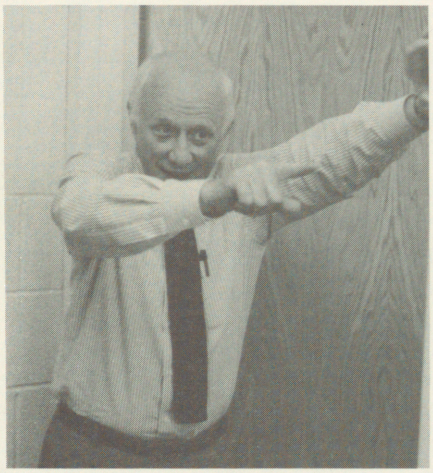

Barbara Favill Marshall '46 and Irl Marshall with Jennifer Koh at the reception which followed Ms. Koh's performance.

The Susan Marshall Memorial Concert is an annual event at NSCDS which features young emerging musical artists. Susan Marshall entered North Shore in the seventh grade and graduated in the class of 1976. Susan played the violin and piano. She also loved to sing, as evidenced by her involvement in Gilbert & Sullivan productions at the School. She continued her studies and the arts at Dartmouth College and later in graduate school at the University of Denver. It was there that she died in a car accident in Boulder, Colorado, in 1982.

North Shore's 1994 Susan Marshall Concert will host accomplished, alumna cellist Wendy Warner '90.

Endowed History Chair Named for Bill Freisem

William F. Freisem

William F. Freisem taught History and Social Studies and headed the department in the Upper School of The North Shore Country Day School from 1973-1990. He returned for school year 1992-93, to be Head of the Upper School.

However, Bill Freisem taught much more than History during his tenure at the School. His students and their parents have become friends and admirers. His wit and wisdom made learning a pleasure and gave his students the confidence to ask probing questions about the world and about themselves.

Upon his second retirement from NSCDS, the School honored Bill Freisem by creating The William F. Freisem Endowed History Chair. It is our hope to raise $250,000 for the endowment which will serve future students and teachers in two ways:

- ❑ to endow faculty salaries and programs for the History and Social Studies department;
- ❑ to establish a collection of books in the Hall Library of NSCDS for the History and Social Studies program.

Hines Fellow Lives Dreams

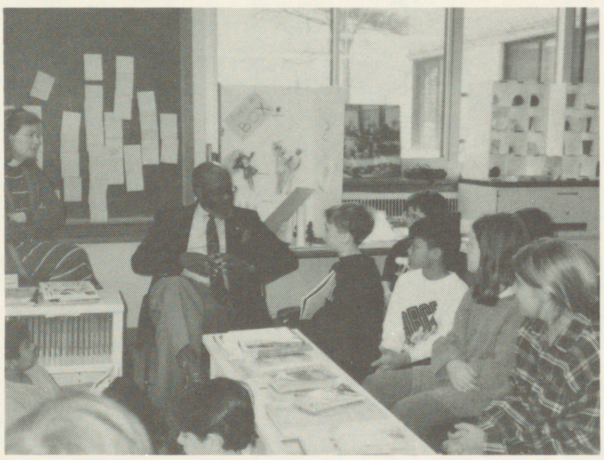

Tradition has always played an important role at North Shore Country Day. One of the traditions we hold particularly dear is our motto "Live and Serve." The Harold Hines, Jr. Visiting Fellowship was established to bring distinguished individuals to campus whose lives articulate the challenge of this school philosophy. Last January, Bill Pinkney spoke to the School community as the 1992-1993 Harold Hines Visiting Fellow.

When Bill Pinkney was a child looking out of the window of his South Side home in Chicago, he dreamed of circumnavigating the globe alone. Though he was raised in an atmosphere that offered dire predications for the future of a young black boy, he refused to be defeated or diverted. In fact, his commitment only grew. In June of 1992 at the age of 57, he became the first African-American to circumnavigate the globe.

[The message] I liked most was to never quit or give up. Let your dreams come true.

—A Middle School Student

On Tuesday, January 12, 1993, Pinkney spent the day talking to students at NSCDS about his incredible odyssey and sharing his inspirational story. During his talk with students, Pinkney stressed the importance of following one's dreams and never allowing the prejudice of others to stand in your way. As he pointed out, "If you are in the middle of the ocean and a fifty-foot wave comes at you,

Bill Pinkney addresses a group of Lower Schoolers.

it's not going to care if you are black, white, rich or poor. All it's going to ask you is 'are you ready?'"

This man's incredible story captivated the audience of students and faculty alike. One student wrote Mr. Pinkney and said, "I will try my best so that my dreams come true." Another student wrote, "I have a dream, and I didn't think I could do it, but now I have the courage to do it."

Pinkney was able to reach and inspire many in the audience on that cold day in January. He proved that it is possible to rise out of a difficult situation to follow a dream and leave a mark on the world. He showed his audience how important it is to "Live and Serve."

Magically Mastering Math

Dr. Barbara Wilmot explains a point at the workshop.

Dr. Barbara Wilmot, the 1993-94 Master-in-Residence, began her tenure at North Shore last April, by giving a mini-workshop on "Making Math Meaningful, Logical and Useful and Maybe Even Fun and Exciting!"

The introductory workshop last April, for faculty from The North Shore Country Day School, six other independent schools and five public schools, offered exercises which focused on communicating math concepts, "math language" and practical applications of math.

During the 1993-94 school year, Dr. Wilmot is spending at least nine days in NSCDS classrooms working with small groups. The goal of Wilmot's residency is to help NSCDS teachers incorporate the new national standards—which include problem-solving, communication in math, reasoning, estimation, geometry, technology, statistics, measurement and more—that will become integral to the NSCDS math program throughout grades K-12.

Dr. Wilmot has been involved in mathematics education for 30 years as a teacher at elementary, junior high, high school and college levels. As a mathematics education consultant, she has worked with dozens of school districts; as a staff developer she has presented over 300 in-service sessions in 21 states. Her professional presentations have been in the areas of technology, geometry, probability and statistics, problem solving, meaningful computation, using manipulative learning aids, number sense, staff development, school renewal, parent involvement and assessment.

She is a member of the Illinois Council of Teachers of Mathematics and National Council of Teachers of Mathematics and is the author of five books, four sets of activity packets and many articles.

Annual Report 1992-93

In fiscal year 1992-93, the Board of Trustees of North Shore Country Day School regretfully planned and accepted a significant deficit in the School's financial operations. The deficit, exceeding six hundred thousand dollars, resulted primarily from two major items:

(1) a decline in student enrollment of 42
(2) one-time transition expenses to a new senior administration.

Obviously, annual deficits of this magnitude cannot be supported into the future. With the one-time transition expenses behind us and confidence that enrollment has stabilized and should grow in subsequent years, the Trustees voted to fund the deficit by increasing the School's long-term borrowing.

North Shore joins its independent school competitors operating in a difficult economic environment. More than ever, the educational experience delivered must satisfy existing North Shore families and attract new ones. The Trustees believe substantial progress has been made in this regard with further improvements yet to come.

Fiscal year 1993-94 promises a modest enrollment increase and a budget approaching break-even. Financial prudence will still be the order of the day. However, I am confident that the School community will meet the current challenges resulting in an improving financial outlook.

Finally, I would welcome suggestions, comments, or questions from any member of the North Shore community.

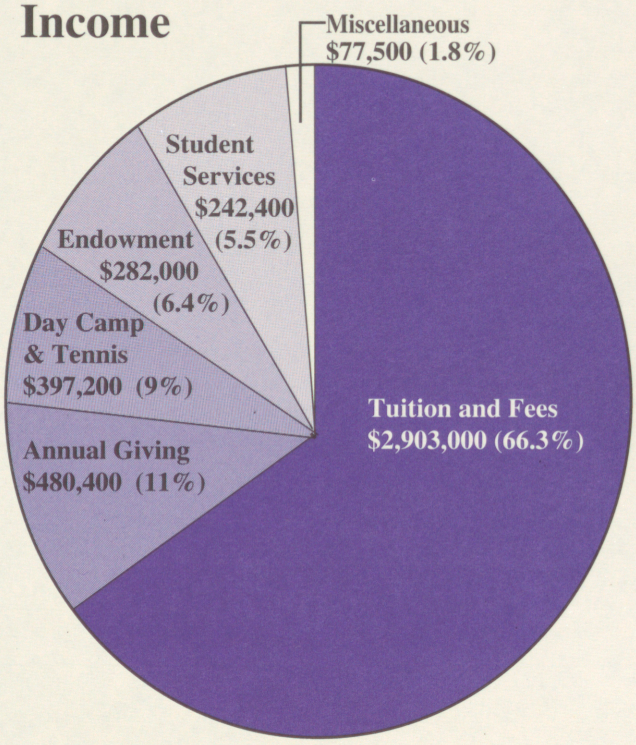

John S. Bakalar

Miller Bransfield '80 calls classmates at the phonathon.

Dear Alumni:

1992-93 Alumni Giving amounted to $246,153 from 941 donors compared to $190,517 from 854 in the previous year. The number of married/alum couples (33) was down slightly from the previous year (34). On an overall basis our percentage of participation was 30.2%, a little better than last year.

The Alumni were very generous this past year, a year in which the malaise in the nation's economy continued. Special thanks are due to the work of Mac McCarty and Bill Hinchliff and, of course, the Alumni Board. A summary of the year's donations on an individual and class basis is included here.
